

# BARNACLE LAMP

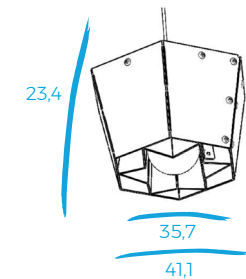

These ingenious lamps, which get their shape from the barnacles found living on a whale's skin, are made from pressed recycled PET felt. Ideal for above the boardroom table 'Whale' or as decoration on the wall. The lamps can be used separately, in any number of combinations or even as a stunning installation, to create exactly the lighting effect you're looking for.

## Materials

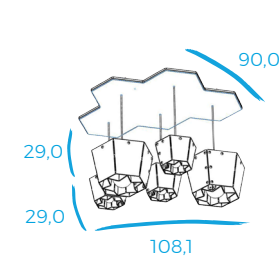

- the lamp is available in dark and light grey recycled PET felt (4 mm thick)
- the lamp is cut from one piece of PET felt, ensuring no leftover material during production
- the lamp is available in two sizes, 'barnacle' small consisting of 8.3 recycled PET bottles and 'barnacle' tall, consisting of 16.6 recycled PET bottles
- available as a single lamp or in a set of 5 or 9 lamps
- available as a ceiling panel or as a wall panel
- the lamp is mounted on a sheet steel cover plate, to which the lamp holder and a cable is mounted
- colour of the steel sheet is copper
- panel: FSC certified beech plywood, colours according to Vepa colour chart 'Lacquer'
- the lighting meets the legal CE marking
- we advise energy-efficient LED lighting, 4W for 'barnacle' small and 7W for 'barnacle' tall (light bulb is excluded)
