

# WHALE BOARDROOM TABLE

Inspiration the boardroom table is a surfacing whale, with its distinctive blowhole and gracious lines. The top is made from layers of recycled PET felt, recycled PET foam and FSC birch wood. The table's legs, which in their design recall a whale's imposing skeleton, are made of robust PEFC oak.

## Materials

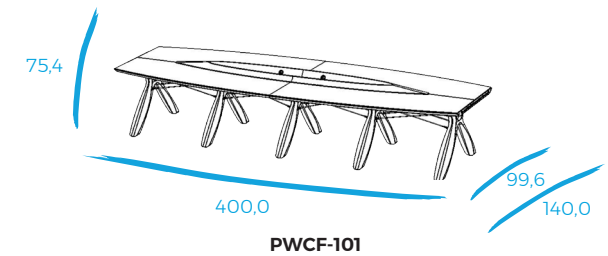

- top layer (inclusive blowhole): 4 mm pressed and recycled PET felt
- intermediate layer: 9 mm FSC-certified birch plywood and 30 mm layer recycled PET foam
- inlay: solid oak with custom imprint
- finish lengthways: varnished plywood
- finish ends: 5 mm PET foam layer with 3 mm lasered metal plate, text: 'This table is made from Amsterdam Canal Plastic'
- table legs: PEFC certified European oak
- metal spreader: chrome-plated, 8 mm
- pet console with 4 power connections, European standard
- for a boardroom table (8 persons) we use 1004 PET bottles, 1374 PET bottles are used for an 12-persons boardroom table

## Quality Labels

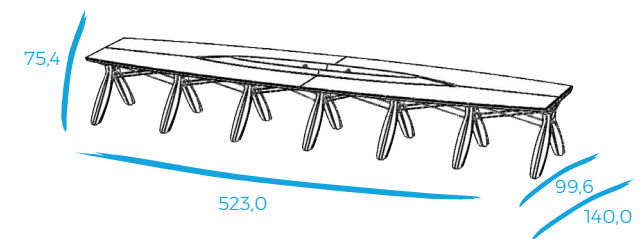

- table legs: PEFC-certified oak
- intermediate layer: FSC-certified birch plywood
- felt: 60% recycled PET bottles
- felt: Oeko-Tex certified
