

WHALE TAIL CHAIR

The shape of the chair subtly echoes the familiar majestic form of the whale's tail. The cast iron frame is made from our own recycled steel waste and the back from pressed felt from recycled PET plastic bottles. Each chair is uniquely finished with heat pressed multi-coloured recycled bottle caps.

Materials

- cast iron base: steel waste from our own factory, melted down locally
- seat back: pressed and recycled PET felt from 67 PET bottles
- seat shell: plywood with oak veneer top layer
- wooden legs: FSC-certified wood, available in white varnish or stained black
- wireframe base according to Vepa colour chart 'Epoxy and lacquer'
- cushion fabric: quality - Uniform Melange by Febrik, choice of 38 colours. Made in Holland
- cushion filling: made from polyether
- the name tags on the side are heat pressed PET bottle caps

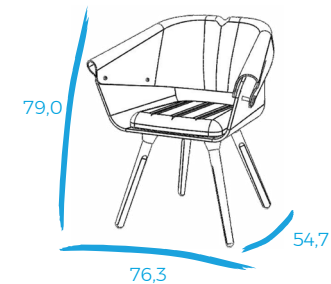

Quality Labels

- wooden legs: FSC-certified wood
- felt: 60% recycled PET bottles
- felt: Oeko-Tex certified
- felt: REACH and RoHS compliant
