

COMPANY FISHING

TOGETHER FOR PLASTIC FREE LAND & SEA

ALL ABOARD!

Together for plastic free land & sea

Plastic Whale has a social mission and it's not a tiny one. Our goal is plastic free land & sea, worldwide. This can only be achieved by getting as many people as possible to take action. You can help achieve our mission. Join us for a plastic fishing tour on the Amsterdam canals with your team, department or company. Enjoy our unique capitol from the water, whilst activating your team by making the world a little better.

What do we do with the plastic we collect?

Plastic Whale recycles the collected plastic to create new things, like furniture and our boats. People see our boats on the canals and get inspired to help us create more things from the collected plastic.

LET'S DO IT!

Plastic fishing in Amsterdam

Before you start plastic fishing, one of our captains will give an inspiring introduction at the boarding location. Time to get on board! Our skippers will show you the most beautiful and surprising places. During this impressive 2,5 hour tour, the teams throw out their nets to collect all the litter. Their hard work is rewarded at the end. The team with the biggest haul and the team with the most special catch receive a unique prize!

We plan 4 tours a day:

- ✓ 09:00 - 11:30
- ✓ 12:00 - 14:30
- ✓ 15:00 - 17:30
- ✓ 18:00 - 20:30

The groups can board and disembark at the following locations:

- Waterkant, Marnixstraat 246
(for groups larger than 30 people)
- Herenmarkt, Brouwersgracht 62
- Zwanenburgwal 36

TEAMBUILDING

Together we can make a difference

NOT JUST A TEAM BUILDING EVENT

Everybody wins today!

Team building is an investment in your own people. We'll give them an event they will be talking about for a long time.

“For the Tommy Cares Foundation, plastic fishing is a unique event. Good, clean fun with a socially responsible background. Our people are thrilled about the plastic fishing, every time we go.”

Robert Monas, Tommy Hilfiger European Foundation

A few hours of plastic fishing with Plastic Whale is inspiring and encourages others to join in. This we know for sure: the whole team will definitely have a positive experience!

WHAT YOU MUST KNOW...

before boarding

CAPACITY PER SLOOP

We allow a **maximum of 8** people per sloop.

REDUCE THE PLASTIC SOUP IN A PLASTIC SLOOP

Plastic Whale boats are made of the plastic waste fished from the Amsterdam canals. Our boats are always operated by one of our experienced captains. On busy days or during large events, in addition to the Plastic Whale boats, we also use external electric boats. These are operated by the participants themselves. Of course we also provide the plastic fishing materials for these external boats.

RAIN OR SHINE, IT'S ALWAYS PLASTIC FISHING WEATHER

No need to get nervous over the weather. Rain will not be a spoiler for this event! There are enough reusable rain ponchos for everyone on board. We have seen it many times before: during the biggest downpours the participants have even more fun fishing for plastic.

Tip! Dress warm. Layer up and start fishing. We fish year round, plastic doesn't wait for summer.

AFRAID TO MISS THE BOAT?

Plastic fishing events from home or office

For companies where it is difficult to meet up in person, we developed the Company Cleanup Online.

We want to involve as many people as possible in our mission 'together for plastic free land & sea'. And that only works by getting people to take action! As a company, you can participate in our online cleanup program from your home or office, anywhere in the world. No matter if you have a company with 20 employees, or over 500.

The cleanup consists of a cleanup package, an online program and an outdoor cleanup activity. As a team you challenge each other; the first to complete the trash bingo card and the person with the most correct answers in the quiz wins a prize. And on top of that: this cleanup equals a good workout at the gym.

This cleanup is guaranteed to end with a smile, no matter where you are! You will be contributing to a better world. In addition, you know a lot more about the global plastic soup problem and what you can do to create a cleaner environment.

PARTNER UP

with Plastic Whale

Do you want to engage your employees, suppliers or customers in your company's sustainability goals? Plastic Whale offers a variety of activities, services and even customized partnerships. We are brimming with ideas and would love to work them out with you. Let's get started!
