

COMPANY CLEANUP ON THE SPOT

LET'S START DOING!

Together for plastic free land & sea

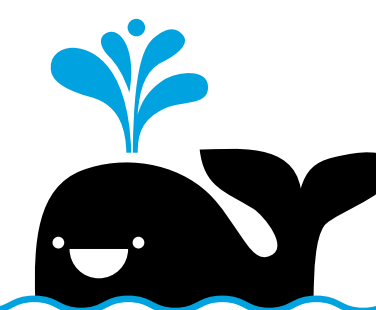

Plastic Whale has a social mission and it's not a tiny one. Our goal is plastic free land & sea, worldwide. This can only be achieved by getting as many people as possible to take action. You can help achieve our mission. Join us for a Cleanup On The Spot with your team, department or company in the surroundings of your office, on the beach or in the park. Wherever you want! A fun team effort that makes the world a little better.

What do we do with the plastic you collect?

Plastic Whale recycles the collected plastic to create new things. Like our boats and the office furniture we make in collaboration with furniture manufacturer Vepa. And the great thing is: when people see you outside collecting plastic litter, they are in turn inspired to deal with plastic waste differently. After all, plastic is not waste but a valuable raw material.

PlasticWhale

HOW DOES IT WORK?

Company Cleanup On The Spot

WHERE?

In the surroundings of your office, on the beach, in the woods or in the park. You name it!

WHAT?

Welcome with a tasty snack, quiz, 1 hour cleanup, inventory of the loot, group photo and award ceremony

WHEN?

To be determined

RAIN OR SHINE, IT'S ALWAYS CLEANUP WEATHER

No need to get nervous about the weather. Rain will not be a spoiler for this event!

There are enough reusable rain ponchos for everyone. And we have seen it many times before: during the biggest downpours the participants may have even more fun.

TEAMBUILDING

TOGETHER WE CAN MAKE A DIFFERENCE

NOT JUST A TEAM BUILDING EVENT

Everybody wins today!

Team building is an investment in your own people. We'll give them an event they will be talking about for a long time.

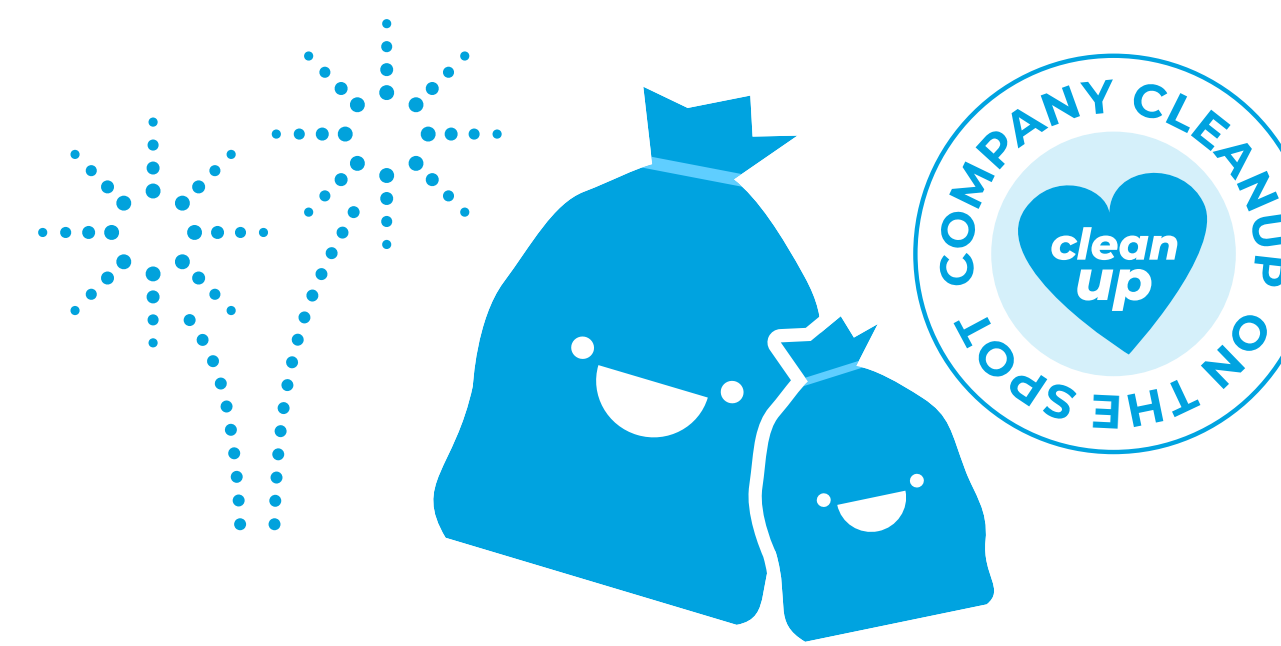

“With Plastic Whale it felt like I did something I would like to share with others. It was fun, the materials were engaging, it was really understandable in terms of what the activity was and the impact it would have.”

Sarah Nicholls – Jones Lang LaSalle

A cleanup with Plastic Whale is inspiring and encourages others to join in. This we know for sure: the whole team will definitely have a positive experience and the cleanup effect will last for a very long time. In addition, as a company you also get an interesting insight into the waste problem in your (office) environment.

ROLL UP YOUR SLEEVES

Cleanups are fun!

LET'S GET TO WORK!

While enjoying a smoothie and a snack, we introduce the group to the world of plastic soup and litter. We share our perspective on plastic and we explain the cleanup rules. But before we roll up our sleeves we will do an entertaining quiz and a short warm up. This 1 hour cleanup easily equals a serious workout in the gym!

IN IT TO WIN IT?

Of course, a team outing is not complete without an element of competition. Therefore the employees will challenge one another. The employee with the best score in the quiz and the employee with the first full litter bingo card win, in addition to eternal fame, a fantastic prize.

ONLY WINNERS

After the cleanup the group gathers again, the Plastic Whale team inspects the loot and announces the winners. We make sure that the waste - and of course the PET bottles we use for new products - are processed or recycled in the right place.

AFRAID TO MISS THE BOAT?

Cleanup events from home of office

Do you have colleagues for whom it is difficult to come to the cleanup location? For companies where it is not so easy to meet up physically, we have developed the Company Cleanup Online.

We want to involve as many people as possible in our mission 'together for plastic free land & water'. And that is only possible by getting people to take action! As a company you can participate in our online cleanup program from your home or office, anywhere in the world. Whether you have a company with 20 employees, or more than 500.

The cleanup consists of a cleanup package, an online program and an outdoor cleanup activity. As a team you challenge each other; the first to complete the trash bingo card and to answer the most correct questions in the quiz wins a prize. And on top of that: this cleanup easily equals a serious workout in the gym as well!

This cleanup is guaranteed to end with a smile no matter where you are! You are contributing to a better world. In addition, you know a lot more about the global plastic soup problem and what you can do to create a cleaner living and working environment.

CLEANUP WITH AN ADDITIONAL GOAL

Transform PET bottles from nature to your new conference table

Of course you collect plastic mainly for the sake of nature. But how cool is it if you also get something real out of it, as a company? We take the plastic bottles you collect and put them back into the chain. You provide the raw materials so we can make new products out of them... for you! For example, we can manufacture a Plastic Whale backpack from 18 recycled plastic bottles. Or will you be sitting at your own Plastic Whale by Vepa Board Room Table, made from 1,004 recycled plastic bottles?

Whale Tail Chair

67 recycled plastic bottles

Barnacle Lamp

starting at 8 recycled plastic bottles

Whale Panel

113 recycled plastic bottles

Barnacle Side Table

starting at 80 recycled plastic bottles

Ask about the options, we are happy to think along with you.

MAKING THE WORLD A LITTLE MORE BEAUTIFUL...

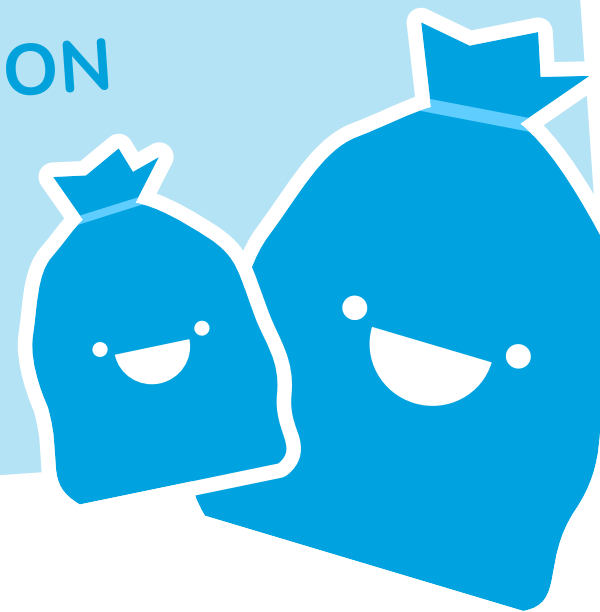

What exactly can you expect?

LOCATION AND TIME
by mutual agreement

NUMBER OF PARTICIPANTS
a minimum of 20

PRICE
€ 45,- p.p.

TOTAL DURATION
+/- 2 hours
