

COMPANY WINTER FISHING

TOGETHER FOR PLASTIC FREE LAND & SEA

ROTTERDAM

LET'S START DOING!

Together for plastic free land & sea

Plastic Whale has a social mission and it's not a tiny one. Our goal is plastic free land & sea, worldwide. This can only be achieved by getting as many people as possible to take action.

Every year, thousands of people join us on our boats to fish for plastic on Amsterdam's canals and in the Rotterdam waters. In winter, we offer a special plastic fishing programme: **winter fishing**. Just as important, and just as much fun!

You can also do a Cleanup On The Spot with your team, department or company. In the surroundings of your office, on the beach or in the park... the choice is yours!

For companies where it is a challenge to meet up in person, we developed the Company Cleanup Online.

ALL ABOARD!

Together for plastic free land & sea, worldwide

The plastic problem has no seasons. In winter, you can still go plastic fishing together, while enjoying the crisp fresh air! With a warm drink you cruise the wonderfully peaceful Maritime District. Another glass of glühwein, anyone? Come winter fishing with your team, department or company in Rotterdam!

Besides a lot of fun, as a team you will experience an event to remember, with a social mission. And nature is the big winner at the end of the day!

What do we do with the plastic we collect?

Plastic Whale recycles the collected plastic to create new things, like our boats and the office furniture we create in collaboration with furniture manufacturer Vepa. And the great thing is: people see you collecting litter on the water and get inspired to help us create more things from the collected plastic. After all, plastic is not waste but a valuable resource.

LET'S DO IT!

Winter fishing in Rotterdam

Before you start plastic fishing, one of our captains will give an inspiring introduction at the boarding location. Time to get on board! Our skippers will show you the most beautiful and surprising places. During this impressive 1,5 hour tour, the teams throw out their nets to collect all the litter.

All the hard work is rewarded at the end... a team building event isn't complete without a competition component. If you fish the most special catch, you receive a unique prize!

We plan 3 tours a day:

✓ 10.30-12.00

✓ 12.30-14.00

✓ 14.30-16.00

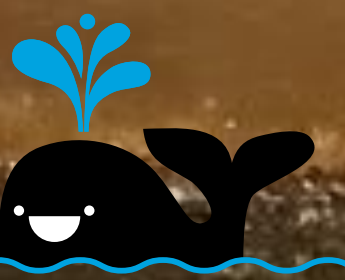

The groups can board and disembark at the following locations:

- Maritiem Museum, Leuvehaven 1

PlasticWhale

A group of four people (three women and one man) are standing in a small wooden boat on a canal. They are all smiling and giving thumbs up. The woman on the far left is holding a long-handled net. The man on the far right is also holding a long-handled net. In the center, a woman is holding a blue sign that reads "Rotterdam plasticvrije wateren" and "PlasticWhale.com The Plastic Fishing Co.". The boat is filled with various plastic items, including bags and bottles, which they have collected. The water in the canal is calm, and the background shows a city street with buildings and trees.

TEAMBUILDING

Together we can make a difference

NOT JUST A TEAM BUILDING EVENT

Everybody wins today!

Team building is an investment in your own people. We'll give them an event they will be talking about for a long time.

“For the Tommy Cares Foundation, plastic fishing is a unique event. Good, clean fun with a socially responsible background. Our people are thrilled about the plastic fishing, every time we go.”

Robert Monas, Tommy Hilfiger European Foundation

A few hours of plastic fishing with Plastic Whale is inspiring and encourages others to join in. This we know for sure: the whole team will definitely have a positive experience!

WHAT YOU MUST KNOW...

before boarding

CAPACITY PER SLOOP

A maximum of **8/10 people** per sloop can board one of our sloops, besides the skipper.

REDUCE THE PLASTIC SOUP IN A PLASTIC SLOOP

Our boats are made of the plastic waste Plastic Whale collects from the water. They are always operated by one of our experienced captains.

RAIN OR SHINE, IT'S ALWAYS PLASTIC FISHING WEATHER

No need to get nervous over the weather. Rain will not be a spoiler for this event! We have seen it many times before: during the biggest downpours the participants have even more fun fishing for plastic.

Tip! Dress warm, layer up.

AFRAID TO MISS THE BOAT?

Cleanup events from home of office

For companies where it is a challenge to meet up in person, we developed the Company Cleanup Online.

We want to involve as many people as possible in our mission 'together for plastic free land & sea'. And that only works by getting people to take action! As a company, you can participate in our online Cleanup program from your home or office, anywhere in the world. No matter if you have a company with 40 employees, or over 500.

The Cleanup consists of a Cleanup package, an online program and an outdoor Cleanup activity. As a team you challenge each other; the first to complete the trash bingo card and the person with the most correct answers in the quiz wins a prize. And on top of that: this Cleanup equals a good workout at the gym.

This Cleanup is guaranteed to end with a smile, no matter where you are! You will be contributing to a better world. In addition, you know a lot more about the global plastic soup problem and what you can do to create a cleaner environment, at home and at the office.

CLEANUP WITH AN ADDITIONAL GOAL

Transform PET bottles from nature to your new conference table

Of course you collect plastic mainly for the sake of nature. But how cool is it if you also get something real out of it, as a company? We take the plastic bottles we collect as an organization and bring them back into the supply chain. To turn them into new products... for you! Will you be having meetings from now on at the Plastic Whale by Vepa Boardroom Table, made from 1,004 recycled plastic bottles?

Whale Tail Chair

67 recycled plastic bottles

Barnacle Lamp

starting at 8 recycled plastic bottles

Whale Panel

113 recycled plastic bottles

Barnacle Side Table

starting at 80 recycled plastic bottles

Ask about the options, we are happy to think along with you.
